TEXAS RANGERS MOBILIZE READY FOR EMERGENCY

Carranza Successes are Growing Apace; Food Supply in Capital Getting Scarce

[Associated Press by Federal Wireline] AUSTIN, Tex., Aug. 14.—A full quota of Texas rangers, equipped with 1000 rounds of ammunition to each man, has been concentrated here, on its way to the Mexican border. Capt. Ransom Harlingen is in command. The next step for the preservation of order will be to call out the national guard.

Advices from the border are that though the situation there continues tense, armed conflicts are diminishing in frequency.

Carranza's junta at Galveston gives out the news that the commanders of the first chief have occupied the towns of Santa Fe, Ajusco, San Nicolas and Contreras, formerly held by Villa.

From the same sources comes the assertion that food prices in Mexico City are falling rapidly and that free distributions of provisions are being made there daily.

GRAIN CONTRACTS WITH U. S. MAY BE CANCELLED

[Associated Press by Federal Wireline] NEW YORK, N. Y., Aug. 14.—Sea-board exporters are mystified by the attempt of a powerful clique of grain brokers to cancel export contracts for the delivery of 2,000,000 bushels to the Allies. James A. Patten, the big Chicago operator, says the attempt indicates either that the Allies have found a new avenue to the great Russian granaries or are unable to meet their contracts with the required cash.

EDITOR GEORGE FITCH IS LAID TO REST

[Associated Press by Federal Wireline] SAN FRANCISCO, Cal., Aug. 14.—Funeral services were held here today for the late George Hamlin Fitch, news editor of the San Francisco Chronicle, who died Tuesday in Berkeley of appendicitis.

A Long Island railroad train, carrying hundreds of commuters, broke an axle near the Blue Point station and caused a delay of more than one hour.

GERMANY GETS LATEST NOTE ON FRIE DISPUTE

U. S. Acceptance of Teuton Proposal Transmitted to Foreign Office

[Associated Press by Federal Wireline] BERLIN, Germany, Aug. 14.—The American note accepting Germany's offer to pay damages for the sinking of the American ship Wm. P. Frye, and proposing the appointment of two commissioners, one from each nation, to determine the amount of the damages, but reiterating the American contention that the destruction of the vessel was a violation of the treaty of 1828 with Prussia, has been received here by Ambassador Gerard. It will be transmitted to the German foreign office today.

IN WAR ARENA

RUSSIANS FIGHT HARD TO CLEAR ARMIES.

LONDON, Eng., Aug. 14.—Vigor reports in official despatches that the southern jaw of the great Austro-German vice is shutting down tighter and tighter. Austrian headquarters announce that the forces of the Teutonic Allies are delivering severe blows against the southern flank of the retreating Russians, which has been denied so deeply that the Russians are being jammed together, disturbing a retirement which they are doggedly fighting to make as orderly as possible.

The distinguished gallantry of the famous Prussian guard in the swamps of the Bug is said to aid notably in accelerating the advance of von Mackensen's command.

**COTTON AS CONTRABAND
BRITAIN'S NEXT MOVE**

LONDON, Eng., Aug. 14.—In a formal interview published today Lord Robert Cecil, under secretary of state for foreign affairs, makes statements which are generally interpreted to preface the intention of the government at an early date to declare cotton contraband of war. Should Britain decide to declare cotton contraband, says Lord Robert, the government will consider itself to be justified, both from the standpoint of British and international law. "I hope," he continues, "America will not act impatiently." She may rest assured that the Allies will give every consideration to the legitimate interests of neutrals.

**DRASTIC RULES LAID DOWN
TO POLES BY TEUTON GOVERNOR**

COPENHAGEN, Denmark, Aug. 14.—Public meetings are reported to have been forbidden by the German military governor of Russian Poland, and communication with the enemies of Germany has been decreed punishable by death. All civilians have been forbidden to carry arms. Shops must close at eight o'clock and theaters at nine.

**RUMANIA LIFTS EMBARGO
ON FOOD STUFFS.**

BUCHAREST, Rumania, Aug. 14.—The government removed today its embargo on the exportation of grain, peas, beans, lentils, and crude petroleum, provided that the export duties are paid in gold. Gasoline is kept on the forbidden list. A hungry market for all these commodities exists in Austria.

**BRITAIN HOLDS SWEDEN
COAL CARGOES.**

STOCKHOLM, Sweden, Aug. 14.—Britain refuses to grant clearance to two Swedish ships laden with coal bought by Swedish business houses and consigned to the Swedish navy. Great Britain recently declared an embargo on the exportation of coal to all nations except her allies and the colonies of the empire.

AUSTRIA LOSES SUBMARINE.

ROME, Italy, Aug. 14.—It is officially announced that the Austrian submarine U-3 was sunk Wednesday in the lower Adriatic. The second officer and 11 of the crew were made prisoners. The remainder drowned.

RUSSIA LEVIES INCOME TAX.

PETROGRAD, Russia, Aug. 14.—The Duma approved today a graduated income tax, imposing a levy of \$3.35 on every \$500 of private incomes.

**NO MOTORCYCLES IN
RURAL DELIVERY SERVICE**

WASHINGTON, D. C.—Use of bicycles or motorcycles in rural delivery service is prohibited by an order issued by Postmaster General Burleson, effective Jan. 1, 1916. In announcing his order, Mr. Burleson holds that vehicles of these types do not have the carrying capacity needed for the parcel post service and do not afford necessary protection for the mails in bad weather. The order will affect about 8000 carriers, who now use the bicycle or motorcycles to cover their routes.

Five persons were hurt in a collision between a Williamsbridge car and a White Plains Avenue car at 23rd street, the Bronx.

Pope Benedict is reported to have appealed to King Victor Emmanuel to aid priests accused by the Italian troops of being spies.

BANKERS SEE ADDED BILLION IN AMERICAN FARM PROFITS

Increasing acre yield—the Gold Medal Alfalfa.

A billion dollars or so added in crop returns through improved alfalfa and fertilized crops as a topic of interest to the agricultural commission of the American Bankers' Association kept farm home bathrooms and kitchen conveniences still in second place. Chairman B. F. Harris said: "We will always remember that farming is a life as well as an industry and business. Let us, however, remember that effort and money spent in this cause of better farm life will be the most marvelous earning asset of a magnificent future. We are realizing more and more the necessity of increasing acre yields."

A sheaf of gold medal alfalfa that weighed thirty-two pounds, winner of first awards, showed what scientific methods had done and could do. The data supplied to Swift & Company revealed benefits of alfalfa to the soil and of fertilizers to the crops which gave promise of new farm wealth reaching the billion dollar mark.

The "best alfalfa in the world" was grown by the Schwartz Brothers of Waukesha, Wis., who offered to tell any banker or farm owner how they have increased farm comforts, profits and crops by the scientific methods advocated by the bankers.

Chairman Harris pointed out that it is only in recent years that the people, including a large percentage of farmers, have begun seriously to appreciate the dominating and the

Duly A. Conant, a farmer of Presque Isle, Me., committed suicide by shooting. He is said to have been depressed over business matters.

About 2,000 houses at Lima, Ohio, were submerged when the Ottawa river overflowed its banks. The river is reported rising rapidly.

U. S. SUBMARINE RUNS AGROUND ON GULL ROCK

Quick Rescue Work By Tugs Averts Disaster to Sea Wasp

[Associated Press by Federal Wireline] NEWPORT, R. I., Aug. 14.—The submarine D-2 went aground on Gull Rock during a practice run yesterday, while maneuvering with other coast defense vessels. She was pulled off by tugs and was found to be not seriously damaged.

TEAMSTERS RIOT IN MISSOURI AND MANY INJURED

[Associated Press by Federal Wireline] ST. LOUIS, Mo., Aug. 14.—Twenty persons were injured here yesterday in a riot between striking teamsters and the police. Five hundred strikers stoned the drivers of the United States mail wagons. Attempts to make arrests were unsuccessful.

NEW OFFICE BUILDING IS PRIDE OF WAILUKU

[Special Star-Bulletin Correspondence] WAILUKU, Aug. 11.—Directly opposite the Maui Hotel on the Lahaina end is the finest new office building on Maui. For the first time in many years a building is being erected which will be wholly devoted to offices. The structure is 65 feet long by about 40 wide, and is built directly on the corner, which is easily accessible from all parts of Wailuku. There are to be in all three stories, with two additional rooms. D. H. Case is to occupy one suite, E. B. Vincent another, and the third will be taken by Eugene Murphy, who had previously an office on this corner lot. The two remaining rooms will probably be taken by Paul Lada. The building will be painted a color to harmonize with the immediate surroundings. The office building was designed by Mr. Case, and worked out in detail by Mr. Lada, who has had the oversight of it during the process of erection. Directly adjoining these offices will be another structure of the same type. The front rooms of the second new building will be used for the office and stock room of the Maui News.

NEW PRESIDENT OF HAITI TAKES OATH OF OFFICE

Expresses Appreciation for the Services Rendered By U. S. Forces

[Associated Press by Federal Wireline] WASHINGTON, D. C., Aug. 14.—President Dartigueauve, the newly elected executive of the republic of Haiti, took the oath of office yesterday. In a statement addressed to Rear-admiral Caperton he expressed his faith in the disinterestedness of the United States in its occupation of the Haitian ports and his appreciation of the assistance rendered by the American troops in restoring order in the republic.

"It is due to the agency of the American forces alone that the election has just been held free from the least effort to intimidate any member of the senate," declares the new president.

CARNEGIE PLAN FOR MAUI GIVEN UP FOR ONE YEAR

[Special Star-Bulletin Correspondence] WAILUKU, Aug. 11.—On Monday afternoon the adjourned meeting of the trustees of the Maui Library Association was held at the library. Nine members of the board from Puenene, Kahului and Wailuku were present. The officers for the coming year were elected as follows: D. H. Case, who had previously served as vice-president, was elected president; Dr. William Omers, as vice-president. The other officers were elected to succeed themselves, D. C. Lindsay for treasurer and R. B. Dodge for secretary. The administration committee was then elected as follows: D. C. Lindsay, chairman; William Seabury, Dr. Omers and the president and secretary, ex-officio. The auditing committee was next chosen, as follows: E. R. Bevins, E. J. Walker and Charles Wilcox. The library book committee consists of R. B. Dodge, Mrs. William Seabury, Mrs. F. F. Baldwin, Mrs. H. B. Penhallow and Mrs. H. D. Shogren. The possibility of securing a Carnegie library for Maui county had been taken up somewhat at length in the administration committee of the library some months previous to the annual meeting. Correspondence between the library officials and the Carnegie Foundation was read. After some discussion of the matter it was finally voted to lay the whole matter of securing a Carnegie library on the table for one year.

WHAT THIN FOLKS SHOULD DO TO GAIN WEIGHT.

Physician's Advice for Thin, Undeveloped Men and Women.

Thousands of people suffer from excessive thinness, weak nerves and feeble stomachs who, having tried advertised flesh-makers, food-fats, physical culture stunts and rub-on creams, resign themselves to life-long slenderness and think nothing will make them fat. Yet their case is not hopeless. A recently discovered regenerative force makes fat grow after years of thinness, and is also unequalled for repairing the waste of sickness or faulty digestion and for strengthening the nerves. This remarkable discovery is called Sargol. Six strength-giving, fat-producing elements of acknowledged merit have been combined in this peerless preparation, which is endorsed by eminent physicians, and used by prominent people everywhere. It is absolutely harmless, inexpensive and efficient.

A month's systematic use of Sargol should produce flesh and strength by correcting faults of digestion and by supplying highly concentrated fats to the blood. Increased nourishment is obtained from the food eaten, and the additional fats that thin people need are provided.

While this new preparation has given splendid results as a nerve-tonic and revitalizer, it should not be used by nervous people unless they wish to gain at least ten pounds of flesh.

FIVE HURT IN PANIC ON OPEN TROLLEY CAR.

Five Manhattanites were injured—three so seriously they were sent to a hospital—in a panic on an open trolley car of the New York and Queens Electric railway, which followed the falling of a live, sputtering overhead feed wire across the dashboard.

Hitting a target no larger than a silver dollar twice in succession at a range of 200 yards was the record made at Davenport, Ia., by C. T. Westergaard of Chicago in the second day of the biennial rifle tournament of the Central Sharpshooters' Union.
